

Rooted Serve Experience – Weeks 6 & 7

One of the rhythms of the Rooted Experience is serving the community. As you talk about serving together ask the group members if they know someone who could use some help. Or if they know an organization that could use some help. Ideally there would be a connection to the group in some way – someone has served before, it's a neighbor, there is a passion, etc.

If you need some help finding a serve experience here is a list of local organizations (not an exhaustive list) that might have serve opportunities for your group.

[A Little Help](#) – senior help
